THE GOVERNMENT OF THE STATE OF NEW SOUTH WALES.

SYDNEY: WILLIAM APPLGATE GULLICK, GOVERNMENT PRINTER

1906.

MEMORANDA.

Population.—The latest estimate of the population shows that the enlarged rate of increase, apparent last year, is still maintained. During the first three months of 1906 the total increase was 8,650, or at the rate of 2·3 per cent. per annum. Of this increase, 6,015 was due to excess of births, and 2,635 to excess of immigration. During the quarter the population passed $1\frac{1}{2}$ millions.

Trade.—The imports during May were valued at £3,002,438, which is £915,906 more than the corresponding month of last year. For the first five months there was an increase of £1,720,585, as compared with last year. The direct oversea imports during the month amounted to £1,266,164, as compared with £915,709 in May, 1905. During the five months there was a falling-off in gold, dried fruits, and kerosene, while increases were shown in metals, machinery, iron and steel, timber, wool, and apparel.

The oversea exports for May amounted to £1,677,134, and for the first five months to £11,521,953, which show increases of £699,485 and £3,806,641 respectively, compared with the corresponding periods of last year. There were increases in all the principal articles, especially butter, wool, and gold. The gold exported amounted to £2,413,490, as compared with £920,927 for the corresponding period of last year. Wheat, however, shows a falling-off.

Gold Production.—The gold yield during May was 19,456 oz. crude, equal to 17,185 oz. fine, valued at £72,998. During the five months of 1906 there has been an increase in the value of the gold produced of £62,211, as compared with the corresponding period of last year.

Prices.—The general index number for May was slightly higher than in April, and was the highest for the year. The index number for pastoral produce was 1,343; for metals, 1,438; and for all articles, 1,290. During the month tin and silver advanced greatly, while the other articles, although the change was not great, showed a tendency to rise.

Meteorology.—During the second half of the month there was a very general rainfall, which covered the whole of the State, and was of very great benefit.
